

Team Faraday Ferrets Second Meeting – Choosing a Project Idea and Discussing Features

Date and Time: January 17, 2024, 6:30 PM – 7:20 PM

Location: Online on Group Discord

Attendees: Jillian Manguba, Christopher Eu, Vedant Pulahru, and Kate Walley

Absent: Thi Thanh Hien Nguyen (absent due to just being added to group)

Agenda Items:

- Decide on a project idea
- Decide on features
- Start user stories

Discussion:

-Christopher favours the book tracker idea, second choice would be productivity app, then parking lot app, for book tracker not sure about where we would find book info, productivity is nice and general, parking lot is well understood

-Jillian favours the book tracker app as well, second choice pet adoption care portal, third choice is budget app

-Vedant talked about pet adoption web app with features such as creating a profile, reports for lost pets, adoption applications

-Kate talked about budget app and possible features such as entering transactions and creating categories

-Jillian suggested goals be included in budget app

-Kate suggested streak for book reading app

-Vedant first choice restaurant and then yoga, interested in restaurant app since he works at a restaurant and wants to make an improved system. Staff scheduling was not working so he wanted to create a better staff scheduler. Reservations order management, availability of staff, etc.

-Kate first ranked book app then pet application and finally productivity web application

-It was decided to do the book tacker web application

-Features discussed for this web application:

1. User can track books (input books with their info)
2. Reviews for books and users can see other reviews
3. A to be read/want to read list
4. Ability to create a profile/personal bookshelf
5. Getting stats and goals in an overview feature

-Decided to discuss using the MERN tech stack in our project proposal

-For Sunday meeting with TA to go over proposal:

-Jillian might be able to attend

-Christopher will attend as long as no internet issues

-Vedant will be working

-Kate will attend

- **Note:** For the meeting with the TA it is important to make sure we have a good separation of features without them being too broad this point was brought up by Christopher. Additionally he mentioned that it's important to make sure the 5 features will count as the distinct features our group needs.

-Calling our web application Bookshelf

-One large epic user story and then smaller user stories based off that suggested by Christopher (1 large and 3 small)

-Group then picked features to write user stories for (each member selected one feature to create stories for)

<u>Feature</u>	<u>Group Member(s)</u>
1. User Profile	Kate Walley
2. Input Books with Information	Christopher Eu
3. A want to read list ("tbr" - to-be-read)	TBD
4. Review books and see other reviews	Vedant Pulahru
5. Overview (stats and reading goals)	Jillian Manguba

-Jillian created a Google Doc for the group to work on the proposal

Action Items:

-Contact new group member in class on Thursday

-Kate will upload these meeting minutes to GitHub

-All the group will contribute their user stories to the Google Doc and help write the project proposal

Decisions Made:

-Project idea

-Project name

-Possible features we want to create

Next Meeting:

January 24th 2024, 6:30 PM on Group Discord

Reminder: Sunday January 21st 2024, 4 PM meeting with TA Online for Project Proposal
